### **2006 Mercury Verado Owners Manual**

I have a 135 Verado on a Montauk 190. The 135 was replaced by the 150. The only change is to the ECU. I am a big fan of these engines. Good batteries are essential for Verados with electric power steering but less critical for the four cylinder 150 Verado, which almost always uses hydraulic steering.

### **VERADO Opinions: Reliability, Maintenance, Performance ...**

Looks like I'm one step closer to a new used boat. I'm looking for any reviews on the 135 Verado. This engine is a 2006, I've already downloaded the manual for the SmartCraft gauges and started reading.

Got a Lake and Bay BocaGrande Kevlar hull and deck lids. 05 Merc 250 s. Trolling motor and 3 batteries up front. Another grp 31 for starting. 40 gallons of fuel and all the stuff to fish can run 68-70mph gps with Bravo 1 s 25P 4 vent holes.

### **Multi-Species Bravo! | Mercury Racing**

Jordon, Thanks for the details. I agree. Vent holes play a big role in improving planing performance of both 2-stroke and 4-stroke outboards. The original Bravo I FS, from February 2012 to August 2013, did not come with Mercury's patented PVS (Performance Vent System). We listened to our customers and enhanced the FS with PVS.

### **Bravo I FS | Mercury Racing**

ACHIEVING OPTIMUM SETUP- 2006 BWB Any rigger will tell you that more setback isn't always

better. Mercury's Verado is a prime example. Placing that much weight more than 4 inches behind the transom of even the widest, beefiest bass boat will cause it to get squirrely at high speeds.

Thanks for the heads up .I was looking hard at the Manitou SHP and the Premier PTX.. You just made up my mind. I love my Southbay but I think the Premier 36" Tri is a better performance toon and now with what you say about Manitou ... they wont be getting my 60k plus.
