Medical billing is a payment practice within the United States health system. The process involves a healthcare provider submitting, following up on, and appealing claims with health insurance companies in order to receive payment for services rendered; such as testing, treatments, and procedures. The same process is used for most insurance companies, whether they are private companies or ...

Health Level-7 or HL7 refers to a set of international standards for transfer of clinical and administrative data between software applications used by various healthcare providers. These standards focus on the application layer, which is "layer 7" in the OSI model. The HL7 standards are produced by the Health Level Seven International, an international standards organization, and are adopted ...

I was initially skeptical but took the advice of my trusted colleagues and finally signed up as a Jameson client. I am SO glad I did! I was worried the Jameson group would be like other consultants I had previously worked with...coming in and giving a heck of a motivational speech, handing over a list of to-do's that never get done and charging an arm and a leg.
