Government Documents & Technical Reports. The NLM is a selective government depository. To access GPO or NTIS microfiche, use the SRIM (Selected Research in Microfiche) record in LocatorPlus, the NLM online catalog. NLM Unique ID number: 9808010

Electronic Databases & Directories: Subject List

Safety. Few alternatives are available. Clinicians should make every effort to reserve supplies for critical care uses. If using sodium acetate as an alternative, infuse the product over 15 to 20 minutes rather than 1 to 2 minutes with sodium bicarbonate.[8]

Sodium Bicarbonate Injection - ashp.org

Buscopan Drug Information from Drugs.com. Includes Buscopan side effects, interactions and indications.

Buscopan Drug Information, Professional - Drugs.com

Description Lorazepam is a member of the benzodiazepine family. Benzodiazepines primarily work by enhancing the function of a certain naturally occurring brain chemical, gamma aminobutyric acid (GABA), that is responsible for inhibiting the transmission of nervous impulses in the brain and spinal cord. At the same time, the enhancement of GABA in the brain decreases symptoms associated with ...

Lorazepam - dose, children, effects, withdrawal, drug ...

The United States Food and Drug Administration has approved alprazolam to treat anxiety, panic disorder, and anxiety associated with depression. Occasionally alprazolam is used to treat alcohol withdrawal, but it is not FDA-approved for this use, and is not normally the first drug tried in treating alcohol withdrawal symptoms.

Nicotinic acid, or niacin, in high doses (greater than 1 gram a day) could increase the risk of experiencing statin side effects.; Bile acid sequestrants may decrease the effectiveness of some statins. To avoid this, it may be recommended to separate your statin dose and bile acid sequestrant dose by at least four hours.

Be Aware of These Statin Drug Interactions

Blood should be collected in a blue-top tube containing 3.2% buffered sodium citrate. 1 Evacuated collection tubes must be filled to completion to ensure a proper blood-to-anticoagulant ratio. 2,3 The sample should be mixed immediately by gentle inversion at least six times to ensure adequate mixing of the anticoagulant with the blood. A discard tube is not required prior to collection of ...
