Notes. Customers in Skype for Business deployments should only use software releases that have been qualified by Microsoft or the maintenance releases built on a qualified release.

### **Polycom VVX 301/311 - Polycom Support**

This article shows how to setup basic centralized provisioning of Polycom SIP Phones by utilizing an FTP server. Also covered as an example is how to use this server to configure phones for Lync integration and pre-populate some parameters.

### **Provisioning Polycom SIP Phones - Schertz**

Workspace mobility at its finest: a scalable, SIP-based, on premise, mobile communications system. The Polycom VVX D60 Wireless Handset complements the portfolio of Polycom VVX Business Media Phones by offering the convenience of cordless with a simple add-on device without losing the SIP features of the VVX Business Media Phones.

### **Polycom Support RSS Feed - supportdocs.polycom.com**

The newest release of Polycom VVX firmware is now available as the 5.3 UCS release. There are a lot of new Lync specific features, some of which are highlighted in this article. Not all of the features are covered, so make sure to also look for the upcoming administrators guide for release 5.3 for full details.

Note. Some remote call control scenarios require a TCP connection between the Front End Server or Director and the PBX. Although Lync Server no longer uses TCP port 5060, during remote call control deployment you create a trusted server configuration, which associates the RCC Line Server FQDN with the TCP port that the Front End Server or Director will use to connect to the PBX system.

As many of you may well know the long awaited public release candidate RTM of Microsoft Lync

2010 (previously Communications Server '14') is now available for download. This major new release offers a radical difference to the previous architecture and unlike its predecessors (Communications Server 2007 R1/2 and to a certain degree Live Communications Server 2005) offers a streamlined and ...
